## INTRODUCTION

---

The Cuatrecasas, Gonçalves Pereira New York office symbolizes the Firm's commitment to having a global presence and to meeting its clients' needs wherever necessary.

The office provides its Spanish and Portuguese clients with speed, quality, and proximity to businesses and transactions in the United States (US), while at the same time serving as a gateway to Europe for US companies.

Cuatrecasas, Gonçalves Pereira supports its clients in understanding, and adapting to, the legal framework in which they do business. This is achieved by experienced lawyers; close work with best-suited US counterparts; and knowledge of the business environment, tax system and best ways to conduct business in the US.
